

SUDAIS KHAN

Software Engineering Student · AI Enthusiast · Full-Stack Developer
sudais094design@gmail.com · +92-345-0949831 · Islamabad, Pakistan · github.com/SK-Devoloper

PROFESSIONAL SUMMARY

Software Engineering student at COMSATS University Islamabad with hands-on experience building full-stack applications, database-driven systems, and AI-assisted tools. Passionate about using technology to solve real-world problems in underserved communities. Actively uses Claude and AI tools in daily work; completed Anthropic's AI Fluency and Claude 101 training. Eager to embed with a nonprofit and build tools that keep running after the fellowship ends.

EDUCATION

B.S. in Software Engineering

Spring 2025 – Present

COMSATS University Islamabad, Pakistan · CGPA: 3.14 / 4.0

- Coursework: OOP (Java), Database Systems, Digital Logic Design, Technical Writing, Data Structures & Algorithms, AICT

PROJECTS

Restaurant Ordering System

Spring 2026

Academic Project — OOP (CSC-241) · Java, Swing, Serialization

- Built a full-scale Java/Swing desktop app across 14 files and 5 packages with no prior GUI framework experience
- Implemented OOP design patterns (inheritance, encapsulation, polymorphism) with real-world order workflow: menu, cart, billing, history
- Used Java serialization for persistent storage; rewrote codebase for Java 6/7 cross-environment compatibility

Airbnb-Inspired Property Rental System

Spring 2026

Academic Group Project — Database Systems · Oracle APEX, SQL, PL/SQL

- Built a web-based rental platform on Oracle APEX simulating core Airbnb features: listing, booking, reviews, payments
- Designed normalized relational schema (3NF) with PL/SQL triggers for automatic availability updates
- Created APEX forms and report pages for property management and guest reservation workflows

Library Management System

Spring 2026

Academic Group Project — OOP (CSC-241) · Java

- Collaborated in a 3-person team to build a library app with search, issue, return, and fine-calculation modules
- Authored full project documentation including UML class diagrams, ER schema, and system design report

Portfolio Website

2026

Personal Project · React.js, CSS3, JavaScript

- Built a modern glass-morphism portfolio with smooth animations and fully responsive design, showcasing projects, skills, and contact information
- Implemented interactive UI components with React hooks and CSS animations; deployed as a personal branding site

Tic Tac Toe — 2 Player & VS AI

2025

Personal Project · Python

- Built a terminal-based Tic Tac Toe game supporting both two-player and single-player (vs AI) modes
- Implemented AI opponent using the Minimax algorithm, making it unbeatable in optimal play scenarios
- Structured with clean game loop logic and modular functions for board display, win detection, and move validation

Combinational Logic Circuit Design

Spring 2026

Academic Project — Digital Logic Design (EEE-241)

- Designed 4-column combinational circuit using K-map minimization and SOP expressions
- Implemented with 74HC-series ICs and produced full Proteus simulation wiring guide and interactive HTML diagram viewer

TECHNICAL SKILLS

Languages	Java, Python, SQL, C++, HTML/CSS, JavaScript
Frameworks	Java Swing, JDBC, Oracle APEX, PL/SQL, React.js, Node.js
Databases	MySQL, Oracle SQL — ER modeling, normalization, transactions
Tools	Git, IntelliJ IDEA, VS Code, Proteus, MS Office
AI Tools	Claude (Anthropic), ChatGPT — prompt engineering & workflow automation
Concepts	OOP, Data Structures, DBMS, Digital Logic Design, UML, Technical Writing

CERTIFICATIONS & TRAINING

- Python Programming Essentials — Rice University via Coursera · Completed July 2025
- AI Fluency — Anthropic
- Claude 101 — Anthropic

WHY CLAUDE CORPS

I believe AI should benefit everyone, not just those with resources. Growing up in Pakistan and watching how technology gaps affect everyday communities has shaped everything I want to do as an engineer. Claude Corps is the opportunity I have been looking for: to use the AI and software skills I am building to serve nonprofits working on real human problems — and to leave behind tools that keep running after I am gone. I am eager to learn fast, work hard, and contribute meaningfully from day one.

LANGUAGES

Urdu (Native) · English (Professional Working Proficiency)
